MEDIA EVENT

The Urology Group Kicks Off Movember at Indian Mound Café

*Join us for **BLUE** beer, conversations about men's health, and chances to win door prizes*

Note to media: Physicians from The Urology Group will be available for interviews

What: The Urology Group physicians and staff will begin growing mustaches on Movember 1 to raise funds and awareness for the Movember campaign with the goal of 'changing the face' of men's health, particularly regarding prostate and testicular cancer.

When: Monday, Nov. 2, 6-8 p.m.

Movember is known internationally as a month to raise awareness for men's health causes, specifically prostate and testicular cancers. Throughout the month, The Urology Group physicians and employees will grow facial hair in an effort to get men talking about their health.

Movember will culminate on Monday, November 30, at 6 p.m. with a public shaving of the physicians at the Indian Mound Café.

Where: Indian Mound Café
5226 Montgomery Rd.
Cincinnati, OH 45212

Why: Gender is one of the most consistent predictors of health and life expectancy. For men, this is not good news given that, on average, they die six years earlier than women. Among other health issues, the impact of prostate and testicular cancer is significant, with prostate cancer being the most common non-skin cancer in men worldwide and the number of cases expected to almost double to 1.7 million cases by 2030. About one man in seven will be diagnosed with prostate cancer during his lifetime.

About The Urology Group

The Urology Group is one of the largest single specialty groups of urologists in the United States, with 39 physicians on staff. The Urology Group provides medical and surgical care for all diseases of the urinary tract in men and women and the genital tract of men. Headquartered in Cincinnati, Ohio, with a 55,000-square foot advanced care facility, the group includes practices extending from Northern Kentucky to Middletown, Ohio, and from Southeastern Indiana to Adams County, Ohio.
